Nobody prints a large color graphic...

...without needing to display it. Whether it be a sign, framing or commercial need, our goal is to enable more people to mount, laminate and display their prints. We do this by fabricating products which eliminate several steps and make the mounting and laminating process easier.

Many of the items you will see in this book are unique to us and include Pouch Boards made from a wide variety of films as well as many different adhesive coated boards. We also feature the Phoenix laminator, which combines the best of our experience with both pouch and roll laminators. Combining ease of use with the ability to use economical roll films on larger products, the Phoenix will complete all of your display needs with professional results.

Our products are used after your image is printed. If you need any assistance in planning your next display project, our hands on experience will help you select the right films for your job and allow you to accomplish more sales.

Thank you again for your business and we look forward to speaking with you soon.

*Jeff Stover and
the Artgrafix Team*

Upgradable to a Roll Laminator!

Complete your laminator and Save with our Starter Kits

Everything you need to start Mounting and Laminating

Our kits come complete with carts, foam board cutters, and supplies. Everything you need to start finishing your prints for display. And best of all, you save over 10% from purchasing items separately!

44" Kits include:

- Cart (Proseal) or Stand (Phoenix)
- ImageEdge 42" Board cutter (810392)
- Roll Kit (Phoenix only)
- Gloss 25"x37" Pouch Boards (C25WHT)
- Gloss 3 mil Roll Film (Phoenix—IG38203)
- 36"x48" Cutting Mat (150115)
- 25"x37" Film Pouches (Proseal—606660)
- Laminator Cleaning Kit (960001)

25" Kit includes:

- Laminator Cart (607560-FH)
- ImageEdge 42" Board Cutter (810392)
- Matte 25"x37" Pouch Boards (M25WHT)
- Gloss 25"x37" Pouch Boards (C25WHT)
- Gloss 18"x24" Film Pouches (606590)
- 36"x48" Cutting Mat (150115)
- Laminator Cleaning Kit (960001)

ProSeal 25" Laminator Kit (630510-KIT) \$2,489 Ships via truck
ProSeal 44" Laminator Kit (630600-KIT) \$2,949 Ships via truck
Phoenix 44" Laminator Kit (632750-KIT) \$2,999 Ships via truck

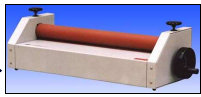

Laminator Carts Available for both the 25" and 44" Laminator. The two-shelf carts are constructed from steel and feature rugged locking casters. Save space by storing next to a wall and moving it when you are ready to use.

44" Cart (607570) 36"H x 60"W x 30"D \$ 399
25" Cart (607560) 36"H x 45"W x 30"D \$ 329

Cold Roller Laminators

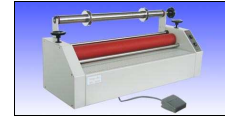

▲DEMCO CL Low Volume Laminators

\$395

Ademco CL25 Manual Laminator Available 25" wide. The Ademco Manual laminator is a robust unit to quickly mount using self-stick boards. The CL25 is also capable of applying roll films wound on a 3" core on included roll dispensing kit. Use with boards up to 3/8" thick. Great for rolling down prints on self-stick boards and our new cold pouch boards—the self-stick board with the laminate film attached. The free-spin height adjustment insures rolls are parallel giving uniform pressure every-time.

Ademco CL25E Electric Laminator Full 25" working width. The Ademco Electric laminator features two speeds up to 7' per minute. Includes foot pedal for hands free operation with built-in safety bar. Use with boards up to 3/8" thick. The free-spin height adjustment insures rolls are parallel giving uniform pressure every-time. Use roll attachment for coating boards with mounting adhesives or protecting prints with over-laminate films. Idler bar allows for use of conventional over-laminates with a release liners. 110V. One year Factory Parts Warranty.

\$695

Daige full featured laminators for signs and displays

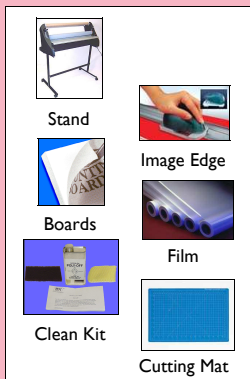

Daige QuikMount 4 Laminator Available in 3 widths—38", 55" and 65". The QuikMount laminator features adjustable speed and nip settings up to 1" thick. Supply shaft, core chucks and foot switch for hands free operation are included. Conventional take-up makes removal of release liners from laminate films automatic. Requires only 110V electricity to operate. Integrated Stand available for \$195. Warranty—6 Month Factory Warranty from Daige.

Seal laminators for all thermal & pressure sensitive films

Seal Ultra Series

Print Feed

Gap Control

Film Guide

Seal Ultra Plus Laminator Available in 44" and 62" working widths. The Seal Ultra Laminator feature a synchronized take-up to automatically remove release liners during processing. This allows for all materials using release liners to be used in a production environment and is required for cold films.

The Ultra series is available with a **single-top heated roller** or **dual top and bottom heated rollers**. Both models will complete the same tasks. Choose the dual heated version if you are going to encapsulate or adhere film to both sides of a print in larger volumes, allowing you to complete jobs faster. The dual heated roller also has pull rollers to assist the cooling of material.

Both units feature a **built-in stand, footswitch, take-up mechanism**, temperature settings and variable speed control. A film guide and integral print feeding bar assure consistent and professional results. The Seal Ultra series works with boards up to 1/2" thick with speeds up to 5 feet per minute. 62 inch version is 220V.

Seal 44 Ultra Plus Dual Heated Laminator (630680) \$6,595
Seal 44 Ultra 'S' Single Heated Laminator (630690) \$5,695
Seal 62 Ultra Plus Dual Heated Laminator (630640) \$8,295
Seal 62 Ultra 'S' Single Heated Laminator (630650) \$7,395

Heat Activated Mounting Boards (HAM)

Artgrafix HAM boards are designed to work in both roll laminators and dry mount presses. All use safe low temperature adhesive which activates at 160 degrees.

Foam Mounting boards (HAM) with low temperature adhesive

Foam board with a low temperature adhesive activating at 160 degrees. Use either a dry mount press or roll laminator. We recommend running the boards in a roll laminator at 200 degrees at 2 feet per minute.

Acid Free Foam Mounting Boards (HAM)

Natural white Acid Free foam board with pH neutral adhesive. Foam boards are buffered to a minimum pH of 7.5 to absorb ambient acids. Acid activates at low 170 degree temperature and can be used in either a dry-mount press, pouch laminator or heated roll laminator. Adhesive has a wide compatability range and can be used with Fine Art papers and coated photographic media. (10/box)

Custom Cut Size Boards

Special sizes and orders are always welcome. Minimum order \$50. You can calculate your own prices at www.mountboards.net or phone us for a quote. We can cut every board we sell including adhesive coated boards. Our minimum length we can cut is 4" and our maximum is 96". Typical time to complete a Custom size order is 3-5 days depending on the size of the order. All of our prices include overpacking for UPS requirements for sizes 32"x40" and smaller. Larger sizes ship by Common Carrier.

Acid Free Pressure Sensitive Cold Films

Artstar Cold Films are Acid Free. All film and adhesive components are not acidic and meet the Library of Congress Standard for the storage of Artfacts.

Acid Free Mounting Rolls (double-sided adhesive)

Choose from indoor lo-tack adhesive - good for most inkjet prints—or outdoor adhesives designed for heavier papers and hard to stick boards such as Gator or Sintra pvc. Both self-wound with a single silicon release liner. Rolls on 3” cores. Lo tack 25” and 51” rolls are 150’ long.

Type	25”x200’	38”x200’	41”x200’	51”x200’

Acid Free Over-Laminate Roll Films

High quality over-laminating films with acrylic adhesives. Gloss film is a thin 2 mil polyester film while the luster and matte films are a 3 mil vinyl film. Gloss film has a crack and peel clear film release liner to insure glass-like results. Matte and Luster films have a thick paper protective release liner which is easy to work with and control. The Outdoor laminate is a Gloss 2 mil cast vinyl film and is 150’ in length.

-----------------------	---------------------------------------	-----------------------------

Linerless Over-laminate Films

Commercial quality laminating film without the release liner. Easy to apply - just place it on your laminator. Doesn't need any special webbing. Good for protecting your inkjet prints and documents without requiring an expensive laminator. Film is a thin 1.3 mil thick which provides good protection for prints adhered to a board yet thin enough for banners and other flexible applications. Wound on 3" cores.

Over-Laminate Films Rolls and Sheets Scuff resistant laminating film cut in ready to use sheets. Films are thicker for ease of use when applying by hand, adhesives are also thicker to minimize "orange peel" and "silvering" effects. Gloss film is a 5mil hard coat film with mirror type gloss levels and can also be used for write-on wipe-off requirements. Matte film is a 5mil polycarbonate with a slight texture to minimize handling and fingerprints. Features permanent acid free acrylic adhesive. (10 sheets/pack)

Cold Pouch Board an easy new way to mount & laminate!

Self-stick foam boards with laminate film attached

A new product which will change the way you think about mounting and laminating. The self-stick boards use acid free lo tack adhesive for initial repositioning. The laminate films are all professional pressure sensitive films. To use, First lift up the laminate film and place your print on the self-stick board and lightly smooth. Second, peel off the release liner to expose the adhesive on the laminate film, and to finish, roll down the laminate film through your laminator. Laminate film is sized to the board. No webbing, no trimming, just as easy as 1, 2, 3. You know your costs and it is quick and easy to do. Great for when you need to mount and laminate 5 prints or less at one time. (10 pouch boards/box)

Pouch Mounting Supplies

We have the widest range of pouch boards to use on any pouch mounter-laminator. The pouch boards listed on this page are our standard pouch boards. We can also make pouch boards from Heavy Duty boards, wood, and Sintra pvc. We can also customize the adhesive to be compatible with the most medias. Whatever your customer's need, the chances are great that you can meet their needs with your pouch mounter-laminator. **When you have that special request, give us a call and we'll make those jobs fast and easy!**

One Pass™ Pouch Boards Available in 3/16" thick white or all black foam board. Choose from our low temperature adhesive boards or with one of our over-laminate films attached including: Gloss; Matte non-reflective finish with a slight texture which is scuff resistant; or Canvas. Mounting board cover sheets have exclusive insert folded edge. **No tape needed!** 10/box.

Acid Free Pouch Board for Fine Art and Photo Mounting

Available in 3/16" thick antique white. Foam Boards are buffered to a minimum pH of 7.5 and will maintain their acid free characteristics longer. Acids yellow and crack prints over time and using these board will eliminate those effects for decades. Combined with our acid free adhesives and uv stabilizers, your print life will be extended 5 times from unprotected prints. Adhesive is very smooth, permanent and long life. Boards meet PAT (Photo) and ASTM (Archival) Standards. Our black boards above are acid free but are not buffered. 10/box.

SuperStick Mounting Pouches

Mounting Pouches convert plain boards into pouch boards. They are film pouches with a heat activated adhesive backing for adhering a print to a board and over-laminating in one step. To use, just place the Mounting pouch on any rigid substrate, insert your print between the film sheet and adhesive sheet and use as you would a pouch board. The gloss is 5 mil, the smooth matte is a write-able surface and the matte is textured surface.

Use these on Gator, Sintra, Corrugated plastic and all rigid boards. 10/box.

Board, Film and Paper Cutters

Professional Cutters and Trimmers

Cutting is the most time consuming part of finishing a print for display. Our cutters deliver precise professional results every time.

Combination Board cutter/Rolling trimmer Fletcher 48" & 65" Wall or table mounted cutter

Cuts Foam board, Gator board, pvc, Corrugated Plastic and more up to 1/2 inch thick and in less than 10 seconds converts to a rolling trimmer for paper and banner stocks. No more need to buy both a rotary trimmer and a board cutter. Just change the blade holder with a trimming wheel, insert the self-healing cutting strip and you're ready to trim your papers and media. Can be mounted on a wall to save space or used on a table. Includes wall mount kit, blades and trimming wheel.

Item	Cutting Width	Price

Trim Wheel

Keencut Sabre™ General Purpose Cutter

Designed to cut a wide range of sheet materials. The Keencut Sabre offers a standard of straight, square and clean cutting. The innovative hinge and lift arm mechanism makes it possible to cut materials which are longer than the length of the cutter and accepts materials of varying thickness without affecting either the line or angle of cut. A full length silicon rubber grip strip mounted in the surface of the base and two more on the underside of the cutter bar ensures all work is held perfectly in place while cutting. Uses standard utility blades. Stand optional.

Multi-substrate Sign Cutter

Cut multiple Foam Boards, Aluminum, rigid pvc, DiBond and other sign and display materials with this production cutting system

Keencut Excalibur™ 1000 63" Wall Cutter Heavy Duty Rigid Board Cutter

Perfect for cutting foam boards and acrylic, the Keencut Excalibur 1000 features a cutting head with interchangeable standard utility blades and plastic scoring blade. One piece squaring arm insures both sides of the cutter will always be in alignment. Cutting line indicator shows the cut line before you cut and with a pressure sensitive clamp and steel reinforced cutting bar which will not flex insure precise cuts. Includes cutting stops and blade depth ratchet control. Wall mounted. Free standing kit available for \$149. (FM-60364)

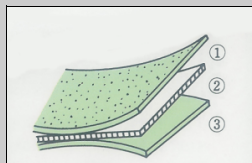

\$1,795

73" cutting capacity available for \$1,995.

Cutting Capability:

- Foamcore up to 1/2 inch
- Rigid pvc (Sintra) up to 12mm
- Corrugated Plastics up to 12mm thick
- Gator board up to 1/2 inch
- Mat board
- Scores Acrylics

3 Ply Construction

Self-healing Cutting mats

Protect work surfaces and insure consistent results

All of our cutting mats are made from multi-ply construction to insure self-healing. The middle layer is hard, supports the entire mat, and prevents knives from cutting through which protects the work table and keeps knives from becoming dull more quickly. The top and bottom layer are soft and easily flow back together after cutting to regain their new appearance. One inch grid Pattern on all mats except where noted.

Table size mats

Image Edge Straight-Edge Cutter

Image Edge cutters are a cost effective professional solution for cutting foam, gator, corrugated plastic and other rigid graphic boards. The aluminum straight-edge ruler is extruded to exact tolerances for precise cuts every-time. The ergonomic cutting head insures both safety as well as facilitates cutting with minimal pressure. 120" Model comes with four 30" lengths which can be joined together and two cutting heads.
